

WHY GREEN?

Being more 'green' means us all doing what we can to reduce our impact on the planet and on climate change. We can do what we can at home, in any job or we can do a specific green job that will work directly to improve the planet - and these jobs are growing.

How can you be more green in **any** job?

Cycle or walk to work or school

Use a cup or bottle you can recycle or reuse

Recycle and reuse when you can

Use green products when you can

Save energy - lights and water

How you can **work in** a green sector or green job?

Nature Recovery

Countryside Ranger
Ecologist
Animal care worker

Low Carbon Transport

Bus or coach driver
Electronics engineer
Cycle mechanic

Low Carbon Buildings

Architect
Recycling operative
Heating engineer

Renewable Energy

Nuclear technician
Electrical engineer
Energy Engineer

Low Carbon Business

Environmental consultant
Software developer
Charity fundraiser
